Individual sessions: Earlybirds £3.60

JB's £7.20

This chart should help you to make sense of the way we work out fees and help you to budget for the year.

Fees are paid only for the days' school is in session (190 a year) and not for any half terms.

Payments are due on the 1st/2nd of the month.

With the way school terms are worked out, some months will be more than others.

Full time a.m. £18.00 per week p.m. £36.00 per week.

If you can claim some benefits, up to 80% of your childcare costs can be claimed back.

If you can't claim, the government has a scheme that saves you 20% of your childcare costs

190 days (full time) X £10.80 = £2,052.00 **saving £410.40 a year**

Obviously, a lot of children don't attend every session. Using the calendar of days that we are in school for the year, should help to make things clear and for you to work out how much you will pay.

If you need any help or clarification, please email or see me at JB's.

Kindest Regards,

Linda.
